

# IP Log for tools.cdt and tools.cdt.tcf

## Release Indigo

### Licenses

- Eclipse Distribution License v1.0
- Eclipse Public License v1.0

### Third-Party Code

CQ	Third-Party Code	License	Use
<a href="#">1468</a>	LPG parser generator Version: 1.1	Eclipse Public License	
<a href="#">3223</a>	ISpell English Word Lists (a zip file with word lists): Version: 3.1.20 (PB CQ1416)	iSpell Open Source License (based on Apache 1.1)	unmodified source
<a href="#">3591</a>	Jabsorb 1.3.1 (Subset: excludes nested jar files)	Apache License, 2.0 + JSON License	
<a href="#">3605</a>	log4j Version: 1.2.15 (Subset - see all comments) (ATO CQ2555) (using Orbit CQ3560)	Apache License, 2.0	unmodified binary
<a href="#">3606</a>	slf4j-log4j12 Version: 1.5.6 (PB CQ3085)	MIT license, + MIT License with no endorsement clause	unmodified binary
<a href="#">3607</a>	slf4j-api Version: 1.5.6 (ATO CQ3084) (using Orbit CQ3201)	MIT license, + MIT License with no endorsement clause	unmodified binary
<a href="#">3608</a>	jcl104-over-slf4j Version: 1.4.3 (PB CQ3046)	Apache License, 2.0	unmodified binary
<a href="#">3622</a>	TrueZip Version: 6.6 (*Subset) (PB CQ2236)	Apache License, 2.0	unmodified binary

*No pre-req dependencies*

### Committers

Past and Present Active		
Name	Organization	
(no author)	(not a current committer)	
cwiebe	(not a current committer)	Chris Wiebe
gheorghe	(not a current committer)	Bogdan Gheorghe
hamer	(not a current committer)	Hoda Amer
jgreen	(not a current committer)	Judy Green
mischarf	(not a current committer)	Michael Scharf, Wind River
pgraves	(not a current committer)	Peter Graves
sevoy	(not a current committer)	Sean Envoy
tdesous	(not a current committer)	Tanya-Marise De Sousa
tfletcher	(not a current committer)	Thomas Fletcher
thomasf	(not a current committer)	Thomas Fletcher (same guy)
vhirsl	(not a current committer)	Vlad Hirsl
James Blackburn		independent - Broadcom
Felix Burton	Wind River	
John Camelon	IBM	
Francois Chouinard	Ericsson AB	
Patrick Chuong	Texas Instruments	
John Cortell	Freescale Semiconductor	
David Daoust	Wind River	was IBM
David Dubrow	Nokia	
Anna Dushistova	Mentor Graphics	
Andrew Ferguson		was ARM
Emanuel Graf	IFS Institut fur Software	
Andrew Gvozdev		independent
David Inglis	QNX Software Systems Co.	
Mikhail Khodjaants	Mentor Graphics	was QNX, ARM
Marc Khouzam	Ericsson AB	
Vivian Kong	IBM	
Oleg Krasilnikov		was Intel
Mike Kucera	IBM	

Marc-Andre Laperle		
Elena Laskavaia	QNX Software Systems Co.	
Anton Leherbauer	Wind River	
Teodor Madan	Freescall Semiconductor	
Alain Magloire	QNX Software Systems Co.	
Sebastien Marineau	QNX Software Systems Co.	Sebastian Marineau
Jason Montojo		was IBM
Andrew Niefer	IBM	
Martin Oberhuber	Wind River	
Warren Paul	Nokia	
Pawel Piech	Wind River	
Norbert Plott		independent - Siemens
Sergey Prigogin		independent - Google
Chris Recoskie	IBM	
Randy Rohrbach	Wind River	
Ken Ryall	Nokia	
Doug Schaefer	Wind River	was IBM, QNX
Markus Schorn	Wind River	
Mikhail Sennikovsky	Intel Corporation	
Uwe Stieber	Wind River	
Ed Swartz	Nokia	
Eugene Tarassov	Wind River	
Leo Treggiari	Intel Corporation	
L. Frank Turovich	Nokia	
Ling Wang	Nokia	
Ted Williams	Mentor Graphics	was Wind River

## Contributors and Their Contributions

Bug	Size	Description
Peder Andersen (windriver.com)		
<a href="#">3128</a>	921	[tcf] icc doesn't support the -Wno-parenthesis flag

<a href="#">36</a>		Proposed fix
<a href="#">312840</a>	1.1K	[tcf] Unable to effectively include Makefile.inc in make systems which use the CFLAGS variable Proposed fix
<a href="#">339579</a>	603	When viewing the TCF sources through the lens of a git repository, "git status" is overly cluttered Proposed fix
<a href="#">339585</a>	2.0K	Some headers aren't declaring routines as "extern" Proposed fix
<a href="#">339595</a>	12.0K	Changes necessary for VxWorks 6.9 targets Proposed fix
<a href="#">339597</a>	1.1K	Improve OS name value for VxWorks targets Proposed changes
<a href="#">339620</a>	2.4K	Add support for wrlinux targets to linux initscripts Proposed fix
<a href="#">339621</a>	20.1K	Assumptions regarding bit-width break on 64-bit targets Proposed fix
<a href="#">341529</a>	615	Makefile.inc forces a "debug" build Proposed fix.
Angelina (qnx.com)		
<a href="#">94711</a>	3.8K	Some help pages are external (from Eclipse website) Links are from help not from web site and added a few more entries to the list of tutorials
<a href="#">193376</a>	15.8K	Various documentation updates - some enhancements for 4,0 features and minor fixes from previous releases Some edits and corrections
<a href="#">193376</a>	2.9K	Various documentation updates - some enhancements for 4,0 features and minor fixes from previous releases updated copyright graphic
<a href="#">193376</a>	2.6K	Various documentation updates - some enhancements for 4,0 features and minor fixes from previous releases updated copyright graphics
<a href="#">193376</a>	34.9K	Various documentation updates - some enhancements for 4,0 features and minor fixes from previous releases Editorial updates and some spell checking
<a href="#">193376</a>	911.3K	Various documentation updates - some enhancements for 4,0 features and minor fixes from previous releases image updates for June 22 CDT build
Abeer Bagul (tensilica.com)		

<a href="#">102434</a>	1.8K	Trying to create ELF archive for non-archive binary files causes problems (patch included) Read magic bytes from the candidate archive file in constructor of AR
<a href="#">183105</a>	702	Wrong status handler for launch error code 101: Working directory does not exist Patch containing the correct error code which the status handler should listen for
<a href="#">216882</a>	1.1K	Add support for xtensa cpu in ELF machine attribute Patch which adds the value of xtensa arch. to the machine attribute in ELF
<a href="#">259881</a>	813	[concurrency] The methods Sequence.get() and Sequence.get(long timeout, TimeUnit unit) have the same implementation Use the given timeout while calling the delegate method.
<a href="#">335648</a>	1.9K	CLI command "hbreak" creates a hardware watchpoint This patch creates a watchpoint only if the type description contains string "watchpoint".
<a href="#">335648</a>	692	CLI command "hbreak" creates a hardware watchpoint If client sets the "hw" attribute to true, do not automatically set the "watchpoint" attribute
<a href="#">337687</a>	3.5K	Support for MI command -exec-arguments Patch using IMIContainerDMContext
<a href="#">339048</a>	1.4K	Remove mention of "PDA launch" when logging errors related to gdb launch shutdown Update error log message
Jon Ball (ca.ibm.com)		
<a href="#">238163</a>	671	%HideMacroDirective.description displayed in filter description Patch to fix typo in plugin.properties file
Violaine Batthish (ca.ibm.com)		
<a href="#">324888</a>	1.6K	Need to subclass CSourceHover patch for protected methods
<a href="#">270013</a>	671	Open Include action always displayed in the outline view in the Makefile editor comment #0
Harald K?stel-Baumgartner (boschrexroth.de)		
<a href="#">327921</a>	143.8K	[Build selected File] Compiler Errors are not shown in Problems View Screenshot of change shown in compare editor
bill.hilliard@intel.com		
<a href="#">145365</a>	24.3K	some MBS user doc updates for 3.1 mbs user doc update (htm files)
<a href="#">1453</a>	505.5	some MBS user doc updates for 3.1

<a href="#">65</a>	K	a zip of the updates to the images subdir
Tor Arne Vestbo (gmail.com)		
<a href="#">203382</a>	7.4K	Add an option to remove trailing whitespace on save Patch to implement remove trailing whitespace on save
Raphael Ackermann (gmail.com)		
<a href="#">182096</a>	1.2K	typo in preferences for new cdt project wizard. toolhain instead of toolchain fixes typo in preferences
Onur Akdemir (gmail.com)		
<a href="#">335324</a>	18.6K	[multi-process][breakpoints] Make the container (process) the breakpointTarget context done cleanups to Marc's patch , working patch.
Dobrin Alexiev (ti.com)		
<a href="#">279473</a>	10.6K	Custom C/C++ Debuggers need a way to add their source containers to the preference page "C/C++, Debug, Common Source Lookup Path" The patch adds an extension point to supported source containers added by other plugins.
<a href="#">337881</a>	207	[Memory Browser] Persist the Go To Address history in the launch configuration comment #15
Glen Anderson (analog.com)		
<a href="#">277004</a>	1.0K	[Wizard] New Source/Header File template combo box text is truncated patch to make the combo read-only
Ruchi Arora (hp.com)		
<a href="#">109733</a>	4.0K	Request to make certain methods as public Patch is created after checking out CDT_3_0_1_RC1 version from cvs , and overwriting few files .
<a href="#">143169</a>	2.4K	Request you to accept the patch for RxThread.java class Patch for RxThread.java
<a href="#">143170</a>	2.0K	Kindly review the patches for MIThread.java and MIInferior.java Patch for MIInferior.java and MISession.java
<a href="#">143175</a>	1.5K	Fix visibility on a fields in BinaryParserBlock Patch for BinaryParserBlock.java
Corey Ashford (us.ibm.com)		
<a href="#">148415</a>	8.2K	CDT doesn't correctly handle 64-bit executables on PowerPC Linux Patch for all the classes in the CDT that use Platform.getOSArch
<a href="#">148415</a>	2.7K	CDT doesn't correctly handle 64-bit executables on PowerPC Linux Platform class to be used instead of the base Eclipse Platform class.

<a href="#">272364</a>	921	Makefile in org.eclipse.cdt.core.linux needs link options switch (LDFLAGS) Adds \$(LDFLAGS) to link commands in Makefile
<a href="#">272370</a>	967	org.eclipse.cdt.core.linux/library/openpty.c gets warning during compilation Adds define of _XOPEN_SOURCE so that ptsname header is included.
<a href="#">272373</a>	556	org.eclipse.cdt.core.linux/library/openpty.c contains include of stropts.h which is no longer supported on Linux Removes unneeded include of stropts.h
<a href="#">296072</a>	14.0K	CDT release is missing shared objects for linux-ppc64-gtk Fragment needed to support ppc64 GTK
Valeri Atamaniouk (mail.ru)		
<a href="#">170398</a>	3.0K	org.eclipse.cdt.core.parser.CodeReader defects Patch for the CodeRader.java file...
Christophe Augier (windriver.com)		
<a href="#">332110</a>	3.0K	Missing properties for data breakpoints support in the Breakpoint Service Add missing properties for data breakpoints support
<a href="#">340319</a>	2.9K	Patch to remove warning during compilation Patch to remove warnings
<a href="#">334146</a>	843	wrong boundary computation in compute_reverse_lookup_indices comment #0
Tom Ball (google.com)		
<a href="#">136713</a>	49.0K	Refactor - Extract local variable Proposed Extract Local Variable implementation
<a href="#">246921</a>	1.2K	NPE in ChangeGenerator when extracting constant Patch to test for modifications to files outside of workspace
<a href="#">249177</a>	6.2K	ExtractFunction specifies void for constant types Patch to fix issue, with unit tests to demonstrate/verify it.
<a href="#">252511</a>	3.5K	UnhandedASTModificationException when refactoring source files in linked directories Replace three calls to getFileForLocation() to findFilesForLocation() in rewriter
<a href="#">256242</a>	9.0K	Extract local variable refactoring doesn't avoid variable name collisions Proposed fix for 256242
<a href="#">262670</a>	10.4K	Added test suites to refactoring packages to ease test development, debugging Added test suites to refactoring packages
Gil Barash (yahoo.com)		

<a href="#">329497</a>	26.0K	[checker] Suggest adding a checker for "no break at end of case" Patch for "case break checker"
<a href="#">329497</a>	5.6K	[checker] Suggest adding a checker for "no break at end of case" Fixing the false negative...
<a href="#">333183</a>	14.1K	Export/Import Syntax Coloring settings TransferSettings for CDT editor settings
<a href="#">333190</a>	2.7K	Import/Export Settings Wizard for C/C++ not working correctly for workspace paths Patch to fix "workspace path" bug
Sebastian Bauer (sebastianbauer.info)		
<a href="#">69791</a>	3.7K	[Parser] Indexer complains about va_list A possible fix for the problem.
Serge Beauchamp (freescale.com)		
<a href="#">262731</a>	848	EnvironmentReader is not thread-safe patch to the EnvironmentReader.java source
<a href="#">303735</a>	1.3K	Tool.getAllInputTypes() logic to override super tool's input types is buggy Patch
Kirk Beitz (nokia.com)		
<a href="#">321162</a>	901	Disassembly view sometimes doesn't display all source code change code to continue looping in case some of the retrieved mixed instructions come before startAddress
<a href="#">322310</a>	6.5K	EDC doesn't fill functionName for StackFrameDMC when file/line not found patch adding function getSymbolNameAtAddress in IEDCSymbol.java & Symbols.java for use in StackFrame.java
<a href="#">322838</a>	4.0K	[tcf] debugging enhancement - in LocatorService.java, wrap DatagramPacket to customize toString() in LocatorService.java, wrap DatagramPacket to customize toString()
<a href="#">323094</a>	3.3K	javadoc: problem warning cleanup : ICSettingsStorage/ICConfigExtensionReference : deprecated reference in comments only javadoc warning problem cleanup
<a href="#">324456</a>	999	edc - disassembly - ARM - avoid NPE in RangeAndMode#toString() fix RangeAndMode#toString() to check startAddress & endAddress for null before dereferencing, output "null" if null
<a href="#">324462</a>	29.8K	edc - ARM - disassembly - fix several bugs with refactoring of ARMDisasassembly and Disasassembly fix several bugs with refactoring of ARMDisasassembly.java and Disasassembly.java

<a href="#">324507</a>	4.7K	[disassembly] view sometimes does not scroll further up, sometimes gets into infinite loop DisassemblyBackendDsf.java patch to change insertDisassembly() local var from insertedStartAddress to insertAnyAddress (patch works against HEAD 1.11 or CDT_7_0 1.8.2.3)
<a href="#">324597</a>	944	[disassembly] maximizing/resizing view sometimes leaves "....." lines DisassemblyPart.java 1.2 patch to cause TextViewer#updateViewportListeners() to cause listeners' viewportChange() to be invoked
<a href="#">325284</a>	17.7K	edc - disassembly - add error recovery for unreadable memory, display as single pseudo-mnemonic updated patch containing only error recovery and pseudoInstr generation
<a href="#">325676</a>	12.5K	[disassembly] add dsf/debug/internal/provisional/service/IInstructionWithSize.java for 7.0.2 new IInstructionWithSize interface, DisassemblyBackendDsf use of new interface, EDCInstruction implementation of new interface, all for commit ONLY to cvs branch to be used for CDT 7.0.2
<a href="#">325677</a>	13.9K	edc - disassembly - context menu item "Show Function Offsets" not working patch to fill function name & offset for instructions so "Show Function Offsets" works in DisassemblyBackendDsf
<a href="#">325678</a>	8.7K	edc - ARM - disassembly - check for alignment when disassembling instructions patch for edc ARM to check for alignment
<a href="#">325679</a>	14.9K	edc - disassembly - allow all but last instruction to be returned for BufferUnderflowException updated patch : addition of CodeBufferUnderflowException and use in recovering from underflow while parsing buffer of ARM code
<a href="#">327494</a>	2.0K	add IMemory.ErrorOffset RANGE_KEY_XXXX static strings for use by MemoryProxy, etc simple patch to supply RANGE_KEY_XXXX strings for use in constructing the ranges passed in IMemory.ErrorOffset reports
<a href="#">327507</a>	927	MemoryProxy not properly processing non-zero offsets in range containing multiple entries bugfix to subtract original address from error address to get offset (includes changes found in patch in Bug 326270)
<a href="#">328522</a>	26.6K	Content Assist feature - auto-replace "." with "->" during manual or automatic Content Assist activation updated patch incorporating review comments
<a href="#">328522</a>	28.3K	Content Assist feature - auto-replace "." with "->" during manual or automatic Content Assist activation Toni's HEAD commit merged to CDT_7_0 branch

<a href="#">331629</a>	7.6K	[disassembly] pageUp/pageDown scrolling jumps over unknown sections unexpectedly Alternative fix plus arrowUp/arrowDown cases
<a href="#">339809</a>	3.0K	edc - EDCTrace shows only calls to EDCTrace\$EDCTraceWrapper traceEntry, traceExit, trace EDCTrace.java patch only (eliminate EDCTraceWrapper)
<a href="#">339809</a>	70.6K	edc - EDCTrace shows only calls to EDCTrace\$EDCTraceWrapper traceEntry, traceExit, trace full patch (eliminate trace wrapper)
<a href="#">342791</a>	3.9K	NPE in debug expression hover - null frame context guards against null IFrameDMContext in several functions
<a href="#">321186</a>	543	variable view change highlight incorrect comment #0
<a href="#">321186</a>	1.6K	variable view change highlight incorrect comment #1
<a href="#">321186</a>	364	variable view change highlight incorrect comment #2
<a href="#">321186</a>	0	variable view change highlight incorrect comment #3
<a href="#">321186</a>	3.7K	variable view change highlight incorrect comment #4
<a href="#">321186</a>	3.8K	variable view change highlight incorrect comment #6
<a href="#">321186</a>	467	variable view change highlight incorrect comment #7
<a href="#">321186</a>	582	variable view change highlight incorrect comment #8
<a href="#">321186</a>	316	variable view change highlight incorrect comment #10
<a href="#">322042</a>	612	uninitialized template member in edc JUnit resource Templates.h can cause HEAP allocation failure comment #0
<a href="#">322042</a>	0	uninitialized template member in edc JUnit resource Templates.h can cause HEAP allocation failure comment #1
<a href="#">322051</a>	816	nested scoped variables visible on line after end of scope comment #0
<a href="#">322052</a>	949	edc JUnit test TestLocalScopes1 relying on incorrect visibility bug in one case

		comment #0
<a href="#">322055</a>	313	edc - readability refactoring - change ipAddress to instrPtrAddress comment #0
<a href="#">322055</a>	212	edc - readability refactoring - change ipAddress to instrPtrAddress comment #2
<a href="#">322297</a>	380	enhance Coff.java class Symbol to have final static constants for type and class manipulation comment #0
<a href="#">322309</a>	1.5K	enhance PEFileExecutableSymbolReader to better perform getSymbolAtAddress() comment #0
<a href="#">322609</a>	1.1K	Cleanup warnings for CDT EDC org.eclipse.cdt.debug.edc.windows.agent comment #0
<a href="#">322609</a>	310	Cleanup warnings for CDT EDC org.eclipse.cdt.debug.edc.windows.agent comment #3
<a href="#">322609</a>	274	Cleanup warnings for CDT EDC org.eclipse.cdt.debug.edc.windows.agent comment #5
<a href="#">322609</a>	242	Cleanup warnings for CDT EDC org.eclipse.cdt.debug.edc.windows.agent comment #8
<a href="#">323457</a>	293	[EDC] setting breakpoint on source line without code fails to resolve at nearby line with code. comment #0
<a href="#">323457</a>	72	[EDC] setting breakpoint on source line without code fails to resolve at nearby line with code. comment #1
<a href="#">323457</a>	163	[EDC] setting breakpoint on source line without code fails to resolve at nearby line with code. comment #2
<a href="#">323997</a>	464	edc windows agent - add capability to use new dialog() in ILogging comment #0
<a href="#">323997</a>	147	edc windows agent - add capability to use new dialog() in ILogging comment #1
<a href="#">323997</a>	53	edc windows agent - add capability to use new dialog() in ILogging comment #5
<a href="#">324010</a>	395	edc - Registers.java writing empty "OK" messages to Error Log comment #0
<a href="#">324010</a>	159	edc - Registers.java writing empty "OK" messages to Error Log comment #2
<a href="#">3240</a>	684	edc - extend IconAndMessageDialog.java to present multiline status with

<a href="#">35</a>		log/error details comment #0
<a href="#">3240</a> <a href="#">36</a>	509	edc - fix ConsoleLogManager#dialog() to use new IconAndMessageAndDetailsDialog class comment #0
Irit Belezko (lsi.com)		
<a href="#">1932</a> <a href="#">80</a>	10.8 K	CDT GNU Make Error Parser doesn't parse many common errors generated by make MakeErrorParser patch
<a href="#">2184</a> <a href="#">90</a>	1.3K	restore defaults for source file doesn't work patch with fix
<a href="#">2301</a> <a href="#">65</a>	4.4K	renaming a project doesn't update it's default artifact name patch with solution
<a href="#">2693</a> <a href="#">13</a>	2.2K	wrong shell focus after multiple configurations selection CVS Patch
Baltasar Belyavsky (ti.com)		
<a href="#">2796</a> <a href="#">33</a>	8.2K	Add ability to override command-generation for a build-option Testcases for the custom option command-generator
<a href="#">2796</a> <a href="#">33</a>	12.0 K	Add ability to override command-generation for a build-option Updated patch - applies to HEAD
<a href="#">3005</a> <a href="#">39</a>	17.0 K	Add ability to specify filter-path to build-options that support browsing updated patch - applies to HEAD
<a href="#">3007</a> <a href="#">07</a>	11.9 K	Add ability to specify file-extension filter for build-options that support file browsing patch - applies to workspace
<a href="#">3209</a> <a href="#">49</a>	25.8 K	Add ability to contribute custom field-editor GUI to the Build Option Settings page Updated patch - applies to HEAD
<a href="#">3258</a> <a href="#">98</a>	1.2K	"Manage Configurations" dialog opens on an incorrect parent shell Patch - applies to workspace
Jon Beniston (beniston.com)		
<a href="#">2571</a> <a href="#">90</a>	1.8K	GDB hardware debugger fails to load image file with spaces in path Patch to add support for spaces in filenames
Johan van den Berg (teqcle.co.za)		
<a href="#">3372</a> <a href="#">54</a>	1.5K	Binary not found - Universal ppc+i386 executables are not picked up on 64 bit machines Patch that resolves the issue
<a href="#">3372</a>	481	Binary not found - Universal ppc+i386 executables are not picked up on

<a href="#">54</a>		64 bit machines comment #0
<a href="#">3372</a> <a href="#">54</a>	99	Binary not found - Universal ppc+i386 executables are not picked up on 64 bit machines comment #1
<a href="#">3372</a> <a href="#">54</a>	155	Binary not found - Universal ppc+i386 executables are not picked up on 64 bit machines comment #2
Michael Berger (gmail.com)		
<a href="#">1892</a> <a href="#">28</a>	74.5K	F1 help missing in C/C++ Convert and File Creation Wizards add help to mentioned wizards
<a href="#">2749</a> <a href="#">98</a>	1.4K	Silently ignored exception when creating custom applicability calculators Adds log statement to exception block
Neeraj Bhope (in.ibm.com)		
<a href="#">1452</a> <a href="#">71</a>	1.3K	"if" check in PDOMSearchResult.computeContainedMatches() should be pulled into the outer loop. The needful.
James Blackburn (gmail.com)		
<a href="#">8526</a> <a href="#">4</a>	996	\$(warning text) output from makefiles is parsed as an error rather than a warning Look for [Ww]arning anywhere on line
<a href="#">1494</a> <a href="#">28</a>	4.9K	Binary search thread tries to open Fifos 2nd time lucky
<a href="#">1538</a> <a href="#">94</a>	983	[Bug/Patch] Variable View: Can not format 'short int' to Hex Check for isInt
<a href="#">1551</a> <a href="#">95</a>	2.0K	Modification to GCCPerFileBOPConsoleParserUtility requested make getBaseDirectory public as well
<a href="#">1558</a> <a href="#">16</a>	1.1K	[Patch] NPE thrown by info threads fix NPE
<a href="#">1578</a> <a href="#">70</a>	1.6K	[Patch] Bug in CCommandDSC may lead to incorrect scanner configuration Patch to getSCDRunnableCommand()
<a href="#">1961</a> <a href="#">18</a>	4.9K	CDescriptor junit test fails occasionally Patch to ensure that concurrent modification is actually tested
<a href="#">1961</a> <a href="#">18</a>	1.9K	CDescriptor junit test fails occasionally Patch to ensure element count is checked against cumulative changes
<a href="#">1976</a> <a href="#">34</a>	1.8K	AbsolutePathSourceContainer -- Source lookup fails where project can't be found Patch to check for empty string

<a href="#">201087</a>	1.1K	[Documentation] Template Engine & New Project Model ProcessRunner is at org.eclipse.cdt.core.templateengine.process.ProcessRunner
<a href="#">201087</a>	1.2K	[Documentation] Template Engine & New Project Model IPagesAfterTemplateSelection is at org.eclipse.cdt.ui.templateengine.IPagesAfterTemplateSelectionProvider
<a href="#">201087</a>	44.9K	[Documentation] Template Engine & New Project Model Fixes to projectTemplateEngine docs
<a href="#">222562</a>	855	Regression in per-resource build option settings Patch for CDT 4 branch
<a href="#">242403</a>	7.1K	ClassCastException when Managing Multiple configurations and toolchain contains option Patch 3
<a href="#">247853</a>	1.4K	AbsolutePathSourceContainer does a string comparison check using != Patch to check string length
<a href="#">248419</a>	6.6K	Linked Resources: Should have central means of selecting CDT Resources after findFilesForLocation Updated patch

<a href="#">70906</a>	2.1K	TVT3.0: Duplicate entries in C/C++ preferences Fix for duplicate entry and restore
<a href="#">70943</a>	2.1K	TVT3.0: Non-externalized string in Preferences Keys C++ externalized string
<a href="#">71033</a>	2.4K	TVT3.0: English "Find Refs" etc in Workbench's Key > C/C++ Source preferences. Externalized strings
<a href="#">72117</a>	1.4K	DVT3.0: Corruption in Help docs patch to remove line with content-Language
<a href="#">77482</a>	2.0K	Content extensibility context condition and cursor position bad fix for content assist extensibility
Joanne Woo (mvista.com)		
<a href="#">87556</a>	890	Post-mortem debug fails silently if core file is inaccessible. New message strings.
<a href="#">87556</a>	2.1K	Post-mortem debug fails silently if core file is inaccessible. CoreFileLaunchDelegate.java patch
<a href="#">87556</a>	1.5K	Post-mortem debug fails silently if core file is inaccessible. CoreFilePrompter.java patch

<a href="#">102174</a>	1.7K	Environment variables with multi-line settings not parsed correctly Restore environment variables which contain embedded new line(s).
Darin Wright (gmail.com)		
<a href="#">166997</a>	7.2K	catch up with internal changes in debug platform patch
Alexander Wunschik (wunschik.net)		
<a href="#">86676</a>	494	CDT ghosts resume/step when stack-info-depth fails Patch to return a default stack size in case of an error while getting "stack-info-depth"
John Xia (hotmail.com)		
<a href="#">266540</a>	1.5K	Extra backslashes added when store custom build properties code patch
Mikhail Zabaluev (nokia.com)		
<a href="#">82744</a>	3.6K	Eliminate native compiler warnings when building org.eclipse.cdt.core.linux A patch that eliminates native compiler warnings
Guido Zraggen (hsr.ch)		
<a href="#">222529</a>	20.9K	Improved comment assignment for the NodeCommenter Advanced comment assignment
<a href="#">234783</a>	4.4K	[Refactoring] GettersAndSetters fails if no fields exists in class patch
<a href="#">234786</a>	2.3K	Comment Handling Trailing comments are not allways attached right patch
Zhang Yi (intel.com)		
<a href="#">222585</a>	1.0K	NPE at GnuMakefileGenerator\$.visit() patch
<a href="#">229934</a>	1.1K	ManagedCommandLineGenerator.generateCommandLineInfo() skips text after last symbolic variable patch
<a href="#">255125</a>	1.4K	StackOverflowError with Restore Defaults in property pages when two strings are present new patch with logging.
ashish (gmail.com)		
<a href="#">161529</a>	1.1K	Open Include from the Outline view does not automatically resolve the include file Proposed fix
Marc Decugis (mdsfr.com)		

<a href="#">262912</a>	1.6K	Allow to override refreshProject in MakeBuilder patch for MakeBuilder
Tobias Sodergren (ericsson.com)		
<a href="#">219920</a>	15.5K	Setting breakpoints in CodeSourcery gdb fail because backslashes are always substituted with double backslashes for MICommands Proposed implementation
<a href="#">219920</a>	20.8K	Setting breakpoints in CodeSourcery gdb fail because backslashes are always substituted with double backslashes for MICommands Single patch for all changes (+committed, +logged)
David Kagedal (intel.com)		
<a href="#">328360</a>	33.0K	Language fixes for the spec Proposed fix
Vaidotas Radzius (hotmail.com)		
<a href="#">93842</a>	1.1K	I18N: Core model messages should not be concatenated patch for HEAD
gaetan morice (sierrawireless.com)		
<a href="#">243768</a>	9.7K	[tcf] Possibility to programatically add new services to the java implementation Patch in order to add an API for local/remote service addition
Leo B?ttiker (hsr.ch)		
<a href="#">138333</a>	897	Pragma Bug in BaseScanner Fix the pragma bug in the BaseScanner
<a href="#">148360</a>	64.9K	Comment-Parsing Patch for parsing comments
<a href="#">148360</a>	2.7K	Comment-Parsing Visualtest for comment parser patch
mikeikeo@hotmail.com		
<a href="#">344646</a>	6.1K	Use EFSExtensionManager to get project paths Use EFSExtensionManager to get project paths - patch for cdt_7_0
sebastian.moss@murex.com		
<a href="#">248865</a>	16.2K	add ability to check if ICPPMethod is pure virtual proposed patch adding ICPPMethod.isPureVirtual and storage in PDOM db
<a href="#">250167</a>	13.3K	getFriends unimplemented for PDOMCPPClassType patch as per suggestions
<a href="#">250167</a>	3.5K	getFriends unimplemented for PDOMCPPClassType test cases for friend handling

<a href="#">252697</a>	9.0K	exception specifications for member functions not stored in PDOM test cases for exception spec handling in index
<a href="#">252697</a>	36.5K	exception specifications for member functions not stored in PDOM ICPPFunction.getExceptionSpecification
<a href="#">254520</a>	13.6K	storage class specifiers for c and cpp function parameters not supported by PDOM patch as described for isAuto, isRegister
uwe@wwws.de		
<a href="#">53323</a>	4.3K	Make implementations of Addr2Line and CPPFile extendable Synchronize implementations of Addr2line/CPPFilt/Objdump to be extendable
xgsa (yandex.ru)		
<a href="#">244025</a>	4.5K	Variable view fails to show details for base class member The patch to fix the bug with cleaner code
<a href="#">326269</a>	26.3K	Checker for instantiation of an abstract class Checker that warns about abstract creation (comment fixture)
<a href="#">326269</a>	3.9K	Checker for instantiation of an abstract class A few fixes to the committed checker
<a href="#">326269</a>	3.3K	Checker for instantiation of an abstract class Bug fixture for virtual destructors override
<a href="#">326269</a>	232	Checker for instantiation of an abstract class comment #5
<a href="#">326269</a>	867	Checker for instantiation of an abstract class comment #7
<a href="#">326269</a>	897	Checker for instantiation of an abstract class comment #9
<a href="#">326269</a>	18	Checker for instantiation of an abstract class comment #11
<a href="#">326269</a>	150	Checker for instantiation of an abstract class comment #12
<a href="#">326269</a>	489	Checker for instantiation of an abstract class comment #15
<a href="#">326269</a>	61	Checker for instantiation of an abstract class comment #19

## **Repositories**

The information contained in this log was generated by using commit information from the following repositories:

/svnroot/dsdp/org.eclipse.tm.tcf
